MSW, 2017

Appalachian State
University
BS, 2010

Design Experience

Product Design Flex April 2020

Thinkful

- Learned industry best practices and design process standards with a focus on UX Research, Visual Design, and Front-end development.
- Created and deployed projects while learning new tools and frameworks by collaborating several hours every week with a senior product designer.

Cloud Storage Application

- My goal was to take some of the best aspects of current cloud storage and organization applications and inject them with a sense of social networking. The finished project managed to accomplish a user friendly design coupled with innovative features.
- <https://invis.io/WDW7L578ZBC>

Mobile Transit Application

- My goal was to create a user-friendly, minimalist re-design for a local transit app. Users were having trouble navigating current bus routes and understanding the arrival schedules. This finished project accomplished this clean, polished look that also delivers critical information.

Additional Experience

School Based Mental Health Therapist 2019-2020

Family First Community Services

- Implemented intervention plans for clients in collaboration with the client's teacher, school administration, and family.
- Evaluated behavior patterns and provide resources for parents and teachers.

EC School Social Worker 2018-2019

Union County Schools

- Implemented trauma-based behavioral therapy interventions for clients.
- Designed once-weekly small group therapy for high-risk middle and high school clients.
